Owing to a stight delay in completing his maps, V. R. Parkhurst, in charge of the topographical survey of Indian and Soldier creeks, was unable to turn in his report to members of the North Topeka drainage board at their meeting Monday afternoon. Mr. Porkhurst will make his report within a few days, however, and it will be sent immediately to H. B. Walker, state drainage engineer.

Largely on the opinion of Mr. Walker will depend the nature of the improvements, if there are to be any at all, along Soldier and Indian creeks. During high water periods, farmers living in the vicinity of the streams suffer heavily from damage done to crops and other farm property. It was with a view of determining on some method of relieving that condition that the survey of the creeks was ordered by the board.

In all prohability, final decision will rest with the farmers. Following Mr. Walker's report, a meeting of persons living in the district affected will be called. Mr. Walker will be present and will make a complete explanation of the work. When the subject appears to be clear, a vote will be taken and if farmers want the improvements they will be given the opportunity of making their dealers known.

Will Distribute Flowers.

That flowers will be distributed by members of the Local Union to Towisting her soon. W. N. Moore and visiting her soon.

[Items for this department may be phoned to 3915 or State Journal office.]
